Gravel N°14 - Following the route of the old Larzac railway line

Des Gorges du Tarn au Causse du Larzac

Sur l'ancienne voie ferrée (Virginie Govignon - OT Larzac et Vallées)

A fun ride along this route, which follows an old railway line. Forest tracks, stony sections, fast stretches: expect plenty of changes of pace!

All the gravel cycling potential of the Larzac region is encapsulated in this route, which winds its way between country roads and wooded tracks, with the old railway line from Tournemire to Le Vigan forming its backbone. Take care on a few stony sections (and it’s not the ballast!). Along the way, a stop at Les Canalettes is a must – a unique network of underground faults.
